

Material Safety Data Sheet

1. IDENTIFICATION OF THE MATERIAL AND SUPPLIER:

Product Name: **Fortron WASH & WAX**

Other Names: **Wash & Wax**

Recommended Use: A very concentrated low foaming formula that cleans, shines and protects vehicle paint surfaces.

Supplier: Fortron Automotive Treatments Pty Ltd
14-18 Sangiorgio Court, Osborne Park
Perth, Western Australia 6017
ACN 008 872 197 ABN 12 008 872 197

Phone: (618) 9202 7800 (Monday – Friday 8.00am – 5.00pm)
Fax: (618) 9202 7851
www.fortron.com.au

Emergency Telephone No: 0433 088 498

2. HAZARDS IDENTIFICATION:

NOT CLASSIFIED AS HAZARDOUS ACCORDING TO CRITERIA OF N.O.H.S.C.

Hazard Identification Not classified as Hazardous

Risk Phrase:

Safety Phrase:

3. COMPOSITION/INFORMATION ON INGREDIENTS:

<u>Chemical Name</u>	<u>CAS Number</u>	<u>Proportion % w/w</u>
Ingredients determined to be Non Hazardous		100

All the constituents of this materials are listed on the Australian Inventory of Chemical Substances (AICS).

4. FIRST AID MEASURES:

Swallowed:	If swallowed DO NOT induce vomiting. Immediately rinse mouth with water. Give a glass of water to drink. If vomiting occurs, place victim's face downwards, head lower than hips to prevent vomit entering lungs. Seek immediate medical advice. For advice, contact a Poisons Information Centre. Phone Australia 13 1126; New Zealand 0800 764 766; or a doctor (at once).
Eye:	If contact with the eye(s) occurs, immediately hold the eye open and wash continuously for at least 15 minutes with fresh running water. Ensure irrigation under eyelids by occasionally lifting the upper and lower lids. If symptoms persist seek medical advice.
Skin:	Wash contaminated skin with plenty of water. For gross contamination, immediately drench with water and remove clothing. Remove contaminated clothing and wash before re-use. If irritation occurs seek medical advice.
Inhaled:	Remove contaminated clothing and loosen remaining clothing. Allow patient to assume most comfortable position and keep warm. Keep at rest until fully recovered. For all but the most minor symptoms arrange for patient to be seen by a doctor as soon as possible, either on site or at the nearest hospital.
First Aid Facilities:	Eye wash facilities and normal wash room facilities.
Advice to Doctor:	Treat symptomatically. Any material aspirated during vomiting may cause lung injury. Therefore emesis should not be induced mechanically or pharmacologically. If it is considered necessary to evacuate the stomach contents, this should be done by means least likely to cause aspiration of gastric lavage after endotracheal intubation.

5. FIRE FIGHTING MEASURES:

	Material is not combustible.
Extinguishing Media:	Water fog (or if unavailable fine water spray), foam, dry agent (carbon dioxide, dry chemical powder).
Unusual Fire & Explosion Hazards:	Toxic fumes may be evolved in fire situation.
Fire Fighting Precautions:	Not combustible. Fire fighters to wear self-contained breathing apparatus if risk of exposure to vapour or products of combustion.
Hazchem Code:	Not applicable

6. ACCIDENTAL RELEASE MEASURES:

Emergency Procedures: Methods and materials for containment and clean up:-

Small Spills/Large Spills: Slippery when wet. Wear protective equipment to prevent eye contamination. Contain using sand and soil – prevent runoff into drains and waterways. Use absorbent (soil or sand, inert material, vermiculite). Collect and seal in properly labelled containers for disposal. If contamination of sewers or waterways has occurred advise the local emergency services.

7. HANDLING AND STORAGE:

Precautions for Safe Handling: Always wash hands after handling prior to eating, drinking, smoking or going to the toilet.

Conditions for Safe Storage: Store in a cool area away from heat.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION:

National Exposure Standards: Not established for this product.

Exposure Standard means the average concentration of a particular substance in the worker's breathing zone, exposure to which, according to current knowledge, should not cause adverse health effects nor cause undue discomfort to nearly all workers. It can be of three forms; time-weighted average (TWA), peak limitation, or short term exposure limit (STEL).

Time-weighted average (TWA) is defined as the concentration of that substance over an eight-hour working shift, and apply to an eight-hour day, for a five-day working week over an entire working lifetime. Short Term Exposure Limits (STEL) and Peak Limitations may also be specified for short periods of exposure such as 15 minutes.

Engineering Controls: No special requirements.

Personal Protective Equipment: Avoid skin and eye contact. Wear rubber/PVC gloves if contact is prolonged or repeated. Wear eye protection.

Hygiene Recommendations: Keep an eye wash fountain available.

9. PHYSICAL AND CHEMICAL PROPERTIES:

Appearance:	Opaque blue viscous liquid
Odour:	
pH:	7.5 – 8.5
Vapour Pressure:	Not determined
Vapour Density:	Not determined
Boiling Point:	Not determined
Melting Point:	Not applicable
Solubility in Water:	Yes
Specific Gravity:	1.08
Flashpoint:	Not applicable
Flammability Limits:	LEL Not assigned UEL Not assigned
Auto Ignition Temperature:	Not applicable
% Volatile by volume:	75

10. STABILITY AND REACTIVITY:

Chemical Stability:	Stable when stored in cool area away from heat sources.
Conditions to Avoid:	No special requirements.
Incompatible Materials:	No known incompatible substances.
Hazardous Decomposition Products:	No special requirements.
Hazardous Reactions:	Not combustible. Toxic fumes may be evolved in fire situations.

11. TOXICOLOGICAL INFORMATION:

Main Symptoms : No adverse health effects expected if the product is handled in accordance with this Safety Data Sheet and the product label. Symptoms that may arise if the product is mishandled are:

HUMAN HEALTH HAZARDS - ACUTE

Swallowed:	Swallowing may result in nausea, vomiting, diarrhoea and abdominal pain.
Eye:	Irritant to eyes.
Skin:	Repeated or prolonged skin contact may lead to irritant contact dermatitis.
Inhaled:	Inhalation of mists may result in respiratory irritation.

12. ECOLOGICAL INFORMATION:

Ecotoxicity: None established for this product.

Persistence and Degradability: None established for this product.

Mobility: Avoid contaminating waterways.

13. DISPOSAL CONSIDERATIONS:

Disposal methods and Containers: Clean up immediately by absorbing onto soil or sand, inert material or vermiculite. Collect and seal in properly labelled containers for disposal.

Special Precautions for Landfill or Incineration: Refer to State Land Waste Management Authority. Normally suitable for disposal at approved land waste site.

14. TRANSPORT INFORMATION:

UN Number: None Allocated

UN Proper Shipping Name:

Class and Subsidiary Risk: None Allocated

Packaging Group: None Allocated

Special Precaution for User: None Allocated

Hazchem Code: None Allocated

Poisons Schedule: Not Scheduled

Not classified as hazardous for transport (ADG,UN,IATA/ICAO)

15. REGULATORY INFORMATION:

Not classified as hazardous according to criteria of Worksafe Australia.

16. OTHER INFORMATION:

Date of Issue: 9th January, 2008
MSDS Number: MSDS:224
Issue Number: A
